Limited Environmental Review and Finding of No Significant Impact
Village of Waverly
Waverly Well Construction
Pike County
FS390962-0009

The attached Limited Environmental Review (LER) is for a water project in your area which the Ohio Environmental Protection Agency intends to finance through its Water Supply Revolving Loan Fund (WSRLA) below-market interest rate revolving loan program. The LER describes the project, its costs, and expected environmental benefits. Making available this LER fulfills Ohio EPA's environmental review and public notice requirements for this loan program.

Ohio EPA analyzes environmental effects of proposed projects as part of its WSRLA program review and approval process. We have concluded that the proposed project should not result in significant adverse environmental impacts. This project's relatively narrow scope and lack of environmental impacts qualifies it for the LER rather than a more comprehensive Environmental Assessment. More information can be obtained by calling or writing the person named at the end of the document.

Loan award will proceed without further environmental review or public comment unless new information shows that environmental conditions of the proposed project have changed significantly.

Sincerely,

A handwritten signature in blue ink that reads "Jerry Rouch". The signature is written in a cursive, flowing style.

Jerry Rouch, Assistant Chief
Division of Environmental and Financial Assistance
Office of Financial Assistance
